08 — ORGANIC MARKETING & CONTENT SYSTEM

(Directive Round 13)

Core rule (locked, carried from doc 01/02): every demonstration is real. No fake students, no fake reviews, no fake before/after, no fake endorsements. AI is used for storyboarding, backgrounds and concept visuals only (full split in 09_HIGGSFIELD_AI_SYSTEM.md).

Primary channels: Instagram Reels (existing 9.8k audience) → TikTok (new, high organic-education reach) → YouTube Shorts (searchable, long-term compounding) → existing Instagram grid/stories for community and launches.

100 CONTENT IDEAS (grouped by pillar, 20 each)

Pillar 1 — Technique Education (proof of skill) 1. "3 base mistakes ruining your makeup by 2pm in Aussie heat" 2. Colour-correcting a specific skin concern, real client (consented) 3. Brush vs sponge vs finger — blending showdown 4. Mature skin base technique 5. Oily-skin longevity routine 6. Eyeliner shapes for 5 eye shapes 7. Brow mapping in 60 seconds 8. Festival-glitter application without fallout 9. Bridal base that survives crying + heat 10. Speed challenge: full face in 10 minutes 11. Common brush-hygiene mistakes 12. How pro artists pack a kit for a 12-hour wedding day 13. Fixing "cakey" foundation on camera 14. Setting spray vs setting powder — when to use which 15. Contour for round vs long face shapes 16. Lip technique that doesn't feather 17. False lash application for hooded eyes 18. Client consultation walk-through (what Kat actually asks) 19. Colour theory for eyeshadow pairing 20. "What's in my kit" — real, priced, categorised

Pillar 2 — Business Education (the white-space differentiator) 21. "Do you need an ABN to do makeup on weekends?" 22. What Kat charges and why (pricing transparency) 23. Contract red flags every new MUA should know 24. How to price a bridal trial vs wedding day 25. Insurance — what actually happens if a client has a reaction 26. Building a portfolio with zero paid clients yet 27. How to find your first 10 clients in your local area 28. GST — when you actually need to register 29. Deposit and cancellation policy walkthrough 30. What a "kit fee" is and how to charge one 31. Instagram vs website — where new MUAs should focus first 32. Reading a vendor contract (photographer/venue referral terms) 33. How Kat handles a difficult client, professionally 34. Tax time basics for freelance MUAs (general info, not advice — stated on screen) 35. Why "exposure" isn't payment 36. Building relationships with photographers/venues 37. What to say when a client wants a big discount 38. Setting boundaries on last-minute bookings 39. How much a starter kit really costs (with receipts) 40. Turning one bridal booking into five referrals

Pillar 3 — Founder / Behind-the-Scenes 41. Kat's first ever makeup job story 42. A day in the life: 12-hour wedding day 43. Why Kat started teaching 44. Building the Academy — the real, unfiltered process 45. Kat's biggest makeup fail (and what she learned) 46. Studio setup tour 47. Packing for a destination wedding job 48. What James does behind the scenes (funnel/systems — light-touch, Kat stays the face) 49. Responding to real DMs asking for advice 50. The moment Kat knew she wanted to teach full-time

Pillar 4 — Transformation & Demonstration 51. Everyday → bridal transformation, real time-lapse 52. SFX bruise/wound demo (Tier 3 teaser) 53. Ageing effects demo 54. Editorial/creative look built from a mood board 55. Client before/after with consent + release on file 56. "Fix my makeup" audience-submitted photo critique (constructive, kind) 57. One face, three eras (60s/90s/today) 58. Recreating a client's Pinterest inspo photo live 59. Colour-matching foundation live, multiple brands 60. Prosthetic application basics (Tier 3 teaser)

Pillar 5 — Community & Social Proof (real only) 61. Graduate spotlight (real, consented) 62. Student submission critique session 63. Q&A: your questions about becoming an MUA 64. Poll: what should the next course cover 65. Comment-reply video answering top FAQ 66. Live Q&A recap highlights 67. Founding cohort testimonial (real, on camera, consented) 68. "I wish I knew this before I enrolled" honest video 69. Milestone post: waitlist/cohort numbers (real) 70. Course update: what's new this term

Pillar 6 — Hooks/Trend-Format Adaptable (evergreen, re-shoot with any technique) 71. "POV: your MUA actually explains why" 72. "Things I never do as a professional MUA" 73. "Rating makeup myths" 74. "Reacting to TikTok makeup hacks — pro verdict" 75. "Grwm but I explain every step like a class" 76. "Products worth it vs skip it" 77. "If I had to start my kit again for \$200" 78. "3 things that instantly age your makeup application" 79. "What separates amateur from pro application" 80. "Signs you're ready to charge for makeup"

Pillar 7 — Seasonal/Timely 81. Wedding season prep series 82. Formal/schoolies makeup that lasts all night 83. Festival season fallout-proofing 84. Winter skin-prep adjustments 85. Christmas party glam on a budget 86. New Year "new skill" course promo tie-in 87. Valentine's soft glam tutorial 88. Mother's Day gift-a-course promo 89. Back-to-work "5 minute face" 90. End-of-financial-year "invest in your skills" business-module push

Pillar 8 — Direct Offer / Launch 91. Course trailer — Tier 1 92. Course trailer — Tier 2 93. Course trailer — Tier 3 94. "Inside module 3" sneak peek 95. Founding member countdown 96. Cart-closing urgency (honest, real deadline) 97. Payment plan explainer 98. "Is this course right for you" decision-tree video 99. Comparison: this vs a \$5,000 campus certificate 100. Enrolment walkthrough screen-record

30 VIDEO SCRIPTS (structure: Hook → Teach/Show → Payoff → CTA; full scripts written for first 10, remaining 20 as tight briefs reusing the same structure)

Full scripts (representative, ready to film):

1. **"The base mistake ruining your makeup by 2pm"** (Reel, 45–60s) - Hook (0–2s): to camera — "Your foundation is sliding off by 2pm and it's not the product's fault." - Teach (2–35s): demonstrate skin prep step being skipped (no primer suited to skin type / not letting moisturiser absorb); show correct technique side-by-side on real skin. - Payoff (35–50s): show the visible longevity difference (time-stamped, real, no filter). - CTA (50–60s): "This exact process is lesson 1 of The Beginner's Blueprint — link in bio."
2. **"ABN — do you need one yet?"** (Reel, 60s) — Hook: "Do you need an ABN to do makeup on weekends? Here's the real answer." → Teach: explain hobby vs business threshold in plain terms, on-screen text disclaimer "general info, not advice, see an accountant" → Payoff: "This is exactly the confusion I built module 9 of the Kickstart to fix." → CTA: link in bio.
3. **"A day in the life: 12-hour wedding day"** (behind-the-scenes vlog style, 60–90s) — Hook: "5am start, 6 brides, here's what nobody shows you." → Teach/Show: time-lapse of kit pack, first bride, chaos moment handled calmly → Payoff: end-of-day reveal shot → CTA: soft, "if this is the life you want, my Kickstart course covers exactly how to build to this."
4. **"Fixing hooded-eye lash application"** (tutorial, 45s) — Hook → technique on real model → payoff (open-eye result) → CTA to Tier 1.
5. **"The insurance question"** (talking head + text overlay, 45s) — Hook → 3 bullet explainer → payoff (real anecdote, no client names) → CTA to Tier 2 business module.
6. **"SFX bruise in 4 minutes"** (process video, 60s) — Hook → speed-build with music → payoff reveal → CTA to Tier 3 teaser waitlist.
7. **"What separates amateur from pro"** (listicle talking-head, 45s) — Hook → 3 quick contrasts (brush hygiene, blending, timing) → payoff → CTA.
8. **"Client consultation, real"** (screen-recorded or re-enacted with consent, 60s) — Hook → walk through actual questions asked → payoff (why it prevents disasters) → CTA to Tier 2.
9. **"Founding cohort countdown"** (launch/direct offer, 30s) — Hook: "12 spots left in the founding Kickstart cohort." → Teach: what's included, quickly → Payoff: founding price vs future price → CTA: link, deadline stated honestly.
10. **"Comparison: this vs a \$5,000 certificate"** (30–45s) — Hook → side-by-side value table on screen → payoff (what's actually different: live access + AU business content) → CTA.

Briefs for scripts 11–30 (same Hook → Teach → Payoff → CTA structure, topic only): 11. Colour correcting redness · 12. Setting spray vs powder · 13. Brow mapping 60s · 14. Contour by face shape · 15. Pricing a bridal trial · 16. Deposit policy explainer · 17. Kit-building on \$200 · 18. Editorial look mood-board build · 19. Graduate spotlight interview · 20. Live Q&A highlight cut · 21. "Rating makeup myths" · 22. Product worth-it vs skip · 23. Prosthetic basics teaser · 24. Ageing-effects demo · 25. Festival fallout-proofing · 26. Winter skin-prep · 27. Referral-building story · 28. Contract red-flags explainer · 29. Payment-plan explainer for course · 30. Enrolment walkthrough screen-record.

30-DAY LAUNCH CONTENT CALENDAR (validation-sprint aligned to doc 04)

Week	Mon	Tue	Wed	Thu	Fri	Sat	Sun
1	Poll story (topic)	Technique Reel	Founder story	Business-ed Reel	Waitlist page live post	Behind-the-scenes	Q&A story
2	Technique Reel	Hook-format Reel	Micro-workshop announce	Testimonial-style prep post	Technique Reel	Workshop day content	Workshop recap
3	Founding cohort teaser	Business-ed Reel	Course trailer T2	Technique Reel	Countdown post	Live Q&A	Founding cohort close reminder
4	Cohort opens (launch day)	Behind-the-scenes	Technique Reel	Cart-closing urgency	Payment-plan explainer	Enrolment recap	Thank-you/what's-next post

Weekly filming plan

One batch-filming day every Sunday or Monday (3–4 hours): 5–7 pieces of raw footage covering that week's calendar, filmed in the existing studio space, phone + lav + key light. Edit in CapCut across the week (30–45 min/day) or hand to a contract editor once Scenario 2 (doc 06) is reached.

Posting schedule

IG Reels: 5×/week. TikTok: 4–5×/week (can reuse Reels edits with native captions). Stories: daily. YouTube Shorts: 3×/week (repurpose top-performing Reels). Grid feed posts: 2×/week for launches/testimonials/educational carousels.

Content-batching system

Monthly planning session (James + Kat, 45 min) → weekly batch-film day → daily 15-minute caption/schedule task → Friday performance review (15 min).

KPIs

Follower growth rate (target ESTIMATE: +10–15%/month during validation, +5–8%/month sustained); Reel average watch-through %; saves-per-post (education content proxy for value); DM/comment "how do I join" mentions (purchase-intent signal); email list growth; waitlist → presale conversion %; cost per email lead if any paid boosting used.

09 — HIGGSFIELD AI CONTENT SYSTEM

(Directive Round 14)

Locked rule: AI never fabricates a customer, review, professional endorsement, product result, or before/after. AI is used for storyboarding, world-building, brand visuals, and editing assistance around real footage — never as a substitute for it.

The three-bucket rule

Bucket	Definition	Examples
REAL FOOTAGE REQUIRED	Anything showing a technique working, a student result, a testimonial, or product performance	All tutorial demos, client transformations, testimonials, live seminar clips, "day in the life" content
AI-ASSISTED	Real footage enhanced or framed with AI tools — background, color grade, motion graphics, captions, storyboard pre-viz	B-roll background replacement for a clean studio look, animated text overlays, thumbnail generation, trailer editing assistance
FULLY GENERATED CREATIVE CONCEPT	No real footage involved; explicitly conceptual/brand-world content, never claiming to show a real result	Brand mood films, "product world" launch teasers, moodboards, concept ads for future physical product (Lash Lock), anniversary presentation visuals

Every piece of AI-touched content gets a one-line internal tag (REAL/AI-ASSISTED/GENERATED) in the content calendar so nothing crosses the line by accident.

Workflow

1. **Storyboard in Higgsfield** (GENERATED bucket) → 2. **Kat films the real technique** per the storyboard (REAL bucket) → 3. **Edit with AI-assisted backgrounds/motion graphics/captions** (AI-ASSISTED bucket) → 4. **Publish with the correct bucket's disclosure norms** (GENERATED brand-world content is captioned as concept/creative, never implied to be a real class or result).

30 Higgsfield production prompts

Storyboarding / pre-viz (GENERATED, used only to plan real shoots) 1. "Storyboard, 6 panels: MUA demonstrates base technique to camera in warm-lit studio, close-up hand shots alternating with talking-head, premium beauty education Reel pacing." 2. "Storyboard, 4 panels: before/after transformation reveal sequence, dramatic lighting shift, beauty education format." 3. "Storyboard, 8 panels: 'day in the life' wedding-day vlog structure, dawn kit-pack to evening reveal." 4. "Storyboard: SFX bruise application process video, macro close-ups, speed-build pacing with 3 key beats." 5. "Storyboard: live seminar opening sequence, host framing, screen-share cutaway, chat overlay placement."

Cinematic brand videos (GENERATED, brand-world only — never implies a real class) 6. "Cinematic 15-second brand film concept: makeup brushes floating in warm copper light, ivory backdrop, elegant slow-motion, luxury beauty-education brand teaser, no faces, title card 'Kathryn K Academy' in serif type." 7. "Brand world concept: a softly lit editorial studio at golden hour, makeup tools arranged like an artist's instruments, camera glides across the scene, premium mood film, copper/ivory palette." 8. "Abstract brand intro: ink-black background, copper-rose paint/pigment swirling into the shape of the KK monogram, elegant reveal, 3-second sting for video intros." 9. "Product-world concept film: a single makeup palette on black glass, dramatic top light,

slow rotate, premium cosmetics commercial style, no human presence." 10. "Launch-day concept teaser: countdown numerals in elegant serif type over a blurred warm studio background, copper accent glow, brand teaser, no real footage implied."

Background / concept replacement (AI-ASSISTED — used behind real Kat footage) 11. "Clean softly blurred studio background, warm ivory tones, subtle bokeh, suitable as a virtual backdrop behind a talking-head beauty tutorial." 12. "Elegant minimalist backdrop, copper-rose gradient wash, soft vignette, suitable for text-overlay educational carousel slides." 13. "Abstract warm light-leak texture overlay, subtle, for transition effects between tutorial steps." 14. "Soft dark teal gradient background for SFX/professional-tier content branding distinction."

Hook variations / thumbnail concepts (AI-ASSISTED, generated frames used as thumbnails only, never as fake demo content) 15. "Thumbnail concept: bold serif text 'Your base is sliding off by 2pm' over a warm-toned blurred makeup studio backdrop, high-contrast, scroll-stopping beauty-education thumbnail style." 16. "Thumbnail concept: split-frame 'amateur vs pro' text callout on ivory background, copper divider line, no real face used — abstract icon representation only." 17. "Thumbnail concept series (5 variants): bold hook-text-first design system, consistent ivory/copper/ink brand palette, for A/B testing headline performance."

Product-world visualisation (GENERATED, future physical product — Year 2) 18. "Concept visualisation: a sleek reusable silicone beauty tool resting on ivory linen, soft studio light, premium cosmetics product photography style, unbranded concept exploration for future product design." 19. "Concept visualisation: minimalist packaging mockup exploration for a beauty tool, copper foil KK monogram, matte ivory box, three angle variations." 20. "Concept exploration: hand holding a beauty application tool near the under-eye area, abstract/illustrative style (not photorealistic claim of product performance), for internal design-review use only."

Advertising concepts (GENERATED, brand-world ads clearly framed as creative concepts) 21. "Instagram ad concept, 4:5: elegant split composition, left panel 'Free content taught you looks', right panel 'This teaches you a living', ivory/copper type-led design, no real footage claimed." 22. "Ad concept: animated text sequence building the phrase 'Learn from a working artist' letter by letter, copper serif type, ink background, 3-second loop."

Moodboards (GENERATED, internal creative reference only) 23. "Moodboard grid, 9 tiles: warm editorial beauty photography references, copper/ivory/teal palette swatches, serif typography samples, premium education brand tone references." 24. "Moodboard: Gold Coast coastal-studio aesthetic references, natural light beauty photography, warm neutral tones, for photoshoot art-direction planning."

Product-launch scene concepts (GENERATED, Year-2 physical product teaser only) 25. "Launch scene concept: single beauty tool presented on a pedestal under a soft spotlight, dark ink background, luxury product-reveal styling, for a future launch-day teaser — clearly conceptual, no claimed real product yet."

Editing assistance (AI-ASSISTED — applied to real footage) 26. "Auto-generate animated caption styling matching brand serif/sans type pairing, copper keyword highlight, for tutorial Reels." 27. "Colour-grade preset concept: warm ivory highlights, soft copper mid-tones, true-to-skin colour accuracy preserved (technique demonstrations must not have skin-tone-altering filters — accuracy is a trust requirement)." 28. "Auto-generate a 15-second highlight cut structure from a 90-minute live seminar recording, prioritising Q&A moments and technique close-ups."

Presentation & internal use (GENERATED) 29. "Elegant presentation background template, warm ivory with a subtle copper corner flourish, serif title placeholder, for internal business-plan slide deck use." 30. "Anniversary presentation cover concept: soft romantic warm-lit studio scene, a single makeup brush resting beside a handwritten note, copper and ivory palette, wide 16:9, premium and personal tone."

What AI must never generate for this brand

Fake student before/after · fake reviews or testimonial text/voices · a synthetic "Kat" performing a technique she hasn't actually filmed · fabricated professional endorsements or press logos · misleading product-

performance claims for the future physical tool before it exists.

3. Learn at your pace with real demonstrations →
4. Join the community for feedback →
5. Get your Certificate of Completion.

Professional/Working-Artist page (Tier 3 focus)

Headline: "The complete professional standard — taught live, start to finish, including SFX." Content: 12-week arc summary, live seminar format, VIP in-person Gold Coast intensive details, graduate directory benefit, cohort cap/scarcity stated honestly ("20–30 seats, twice a year").

Founder Story page

Full brand story from 05_BRAND_GUIDE.md , plus a real photo gallery of Kat's work (existing portfolio from kathrynmua.com/gallery), timeline (2009 certificate → 12+ years client work → Academy launch).

Waitlist page copy

Headline: "Be first in the door." Subhead: "Join the waitlist for early access, founding pricing, and first pick of Tier 3 cohort seats." Form: email + "which course interests you most" dropdown (doubles as market research per doc 04).

Preorder / Founding Cohort page

Used for the validation sprint (doc 04). Headline: "Founding Cohort — 25 spots." Body: honest framing that this shapes the course, price anchor vs future price, start-date commitment, refund terms stated plainly, countdown if a real deadline exists (never fake urgency).

FAQ (draft entries)

- *Is this course accredited?* "No — this is professional training from a working artist, not a government-accredited qualification. You'll receive a Certificate of Completion recognising what you've learned, not a nationally recognised qualification. If you need RTO-accredited training for a specific employer requirement, this isn't that — but it will make you a genuinely better, more employable artist."
- *Do I need any experience to start?* Tier-specific answer (T1: none; T2: basic comfort with makeup application; T3: some working experience recommended).
- *What if I'm not local to the Gold Coast?* Everything except the Tier 3 VIP in-person day is fully online.
- *What's your refund policy?* Link to Returns page.
- *How long do I have access?* Lifetime access to self-paced content; cohort-based live components run to their published schedule.
- *Is this financial/legal advice for my business?* "No — the business modules are general information from Kat's own experience. Please see an accountant or lawyer for advice specific to your situation."

Contact page

Simple form + hello@kathrynmua.com, response-time expectation stated ("within 2 business days").

Shipping page

"All courses are delivered digitally — instant or cohort-start access, no shipping required. Physical products (coming later) will have shipping details published at launch."

Returns/Refunds page (draft — lawyer review required before publishing)

Self-paced tiers: 14-day money-back guarantee if less than 20% of content accessed. Live cohort tiers: refundable up to 7 days before cohort start; non-refundable once the cohort begins, seat transfer to next cohort

offered instead. Consistent with Australian Consumer Law — final wording requires solicitor sign-off (flagged, not yet legally reviewed).

Email sequences (draft copy)

Email popup (site visit): "Get my free guide: 5 Makeup Mistakes Even Talented Artists Make" — email capture, delivers a short PDF/video repurposed from content bank.

Waitlist confirmation email: Subject: "You're on the list 🧡" — Body: thank you, what to expect next, follow Kat on IG for real-time updates, reply-to enabled for questions.

Launch email sequence (5 emails over 10 days): 1. "Doors are open" — announce, full offer details, founding price. 2. "Why I built this the way I did" — founder story angle, builds trust. 3. "Inside the curriculum" — module walkthrough, addresses objections. 4. "Your questions, answered" — FAQ-style, social proof if available. 5. "Closing tonight" — honest final-hours reminder, real deadline only.

Abandoned-cart sequence (3 emails over 3 days): 1. (2 hours later) "Forget something? Your spot's still here" — simple reminder, no pressure. 2. (24 hours later) "Quick answer to the #1 question I get" — addresses top objection (time/cost/experience level). 3. (48 hours later) "Founding price ends soon" — honest urgency only if genuinely time-limited.

Post-purchase sequence (4 emails): 1. Immediate: welcome, login details, what to do first. 2. Day 3: "How's it going?" check-in, encourage first-module completion, support contact. 3. Day 14: momentum check, community reminder, upsell soft-mention to next tier if relevant. 4. Day 30 (post-completion for self-paced): request honest review/testimonial, invite to alumni community, present next-tier offer.
