

NORTHPATH · GOLD COAST, AUSTRALIA

Lash Lock Beauty System

*The full platform — brand, mini-class, video engine, funnel,
operations, and launch-readiness assurance*

Prepared for **James & Kat** · Currency AUD · Australian spelling
Compiled 21 July 2026 · Branch `claude/lash-lock-beauty-system-ckcxha`

GREEN · Class & content

AMBER · Tool-adjacent copy

RED · Product claims

How to read this document

Honesty & compliance banner (read first). This platform was built by an AI assistant and is grounded in live research + clearly-labelled assumptions. It contains **no fabricated testimonials, no invented statistics, and no verified product claims**. No physical product testing, supplier verification, or legal approval has been performed by the AI — those are **owner/qualified-party actions** (Gates A/B/C).

About the "videos". Real demonstration footage cannot exist yet: nothing has been filmed, Kat's likeness is not consented for AI, and the product's performance is unverified. Presenting AI-generated product-performance video as proof would breach the compliance rules this system is built on. So the video section below is the **production-ready video platform** — every script, storyboard, thumbnail and generation prompt needed to shoot — with claim-safe copy. Actual videos are produced at the real batch shoot, after Gates A/B/C.

Contents

1. Platform at a glance & launch statuses
2. Positioning & brand
3. The product: "Eyeshadow Without the Mess" mini-class + offer ladder
4. Final launch-safe copy: landing page & emails
5. **The video engine** — pillars, hooks, storyboards, reel & ad scripts, thumbnails, Higgsfield prompts
6. Funnel & operations
7. Claim register & the three launch gates
8. **Red-team review (v1 + v2)**
9. **Expert council review (v1 + v2)**
0. Do these five things next

1 • Platform at a glance

A working Gold Coast makeup artist teaches a clean, repeatable eye-makeup *method* — the un-glamorous professional steps that make everyday makeup look good in person, on camera, and in real Australian heat — paired with the Lash Lock tool and one-page checklists.

THE WHITE SPACE

Own "the clean method"

AU makeup education is dominated by **\$2,500–\$5,000 career certificates**; social tutorials are free but unstructured. The **\$19–79 focused micro-class** tier is wide open. Kat owns **method + honesty + Australian conditions** — a moat US tool brands and big schools can't copy.

THE ENGINE

Tool ↔ class reinforce

The class *is* the honest Lash Lock demo; the tool makes the method effortless. Value-to-product ratio held at **4:1** so it never feels like an ad channel. Real-footage-first; AI for B-roll only.

Launch statuses

Status	What it covers	Can it go live?
GREEN	The \$27 mini-class, free Method Card lead magnet, all educational content, Kat's authority story, the technical/security blueprint, operations	Yes — now, on launch-safe copy
AMBER	Any content near the tool; marketing claims (only  register items); paid ads (after organic proof); privacy policy (draft)	Only with interim-safe wording / limited scope
RED	Selling Lash Lock the physical tool + the \$69 bundle; any material / safety / hypoallergenic / therapeutic / durability / "lasts all day" claim	No — until Gates A/B/C clear

2 · Positioning & brand

Positioning statement. For time-poor Australian women and beginner makeup lovers tired of messy, complicated, doesn't-work-on-me makeup, **Kat** is the Gold Coast working makeup artist who teaches a **clean, repeatable eye-makeup method** — unlike expensive career certificates or endless free tutorials — because she pairs a named method with the exact tool and one-page checklists that make it repeatable at home.

Voice — words she USES

- clean
- controlled
- fallout
- under-eyes
- the step
- repeatable
- looks done
- holds up
- in the heat
- what you actually need
- without redoing
- watch this

Words she AVOIDS

- game-changer
- viral
- miracle
- guaranteed
- #1
- Hi guys
- anti-ageing
- hypoallergenic*
- waterproof*
- *unless verified

Visual world

Premium, feminine, real, warm, cinematic-but-honest. Australian daylight — never plastic AI skin.

Palette: oat #F4EEE6 , sand #E4D6C3 , espresso ink #3B2E26 , clay accent #C1745A , sage #8A9A83 .

Type: warm serif headlines (Fraunces/Canela feel) + clean humanist sans captions.

Signature devices (ownable)

Device	What it is
The Split-Face	Messy side vs clean side, real-time, uncut on the reveal — the brand's signature proof.
The Step Stamp	Each method step appears as a numbered clay tag ("STEP 3 · CONTROL").
The Catch Reveal	Macro of what the tool catches before it reaches the concealer.
The Heat Check	End-of-day timestamp ("6 hrs · 31°C") — the Australian-conditions moat.
The Honest Note	A recurring "here's where it <i>won't</i> help" beat — trust over hype.

3 · The product & offer ladder

Eyeshadow Without the Mess

Kat's Clean Eye Mini-Class · **\$27**

Promise (interim-safe draft): "Learn a repeatable method for controlled eye makeup, cleaner under-eyes and a polished finish — without complicated professional techniques."

The method — P·B·C·A·S: Prep → Base → Control → Apply → Set. 8 short lessons (~45 min) + a 10-piece toolkit.

The ladder

Tier	Offer	Price
Lead	Clean Eye Method Card	Free
Tripwire	5-Minute Everyday Eye	\$19
Core	Eyeshadow Without the Mess	\$27
Bump	Even-Eyeliner add-on	\$14
Upsell	Fallout-Proof System (+ Lash Lock)	\$69
Flagship	Complete Clean Eye System	\$147

Curriculum

#	Lesson	Maps to	Type
0	Welcome + the Clean Method in 60 sec	overview	Talking-head
1	The tools you actually need (8, not 40)	setup	Flat-lay
2	Prep: skin & eye base that won't ruin later	P	Demo
3	Base the lid so shadow grips & won't crease	B	Demo
4	Control: catch fallout with Lash Lock ★ hero	C	Macro demo
5	Apply shadow the clean way (3 shades)	A	Demo
6	Clean liner & lashes without the print	A+	Demo
7	The 5 mistakes that make it look messy (+ rescue)	mistakes	Diagnosis
8	Put it together: real-time run + does it hold in the heat?	result	Real-time
+	Lash Lock care (bundle only) RED	care	Demo

4 • Final launch-safe copy

Landing-page copy shown in its **interim-safe form** — the class is fully sellable now; tool-performance claims wait for Gate A. Gated claims are marked.

LANDING PAGE

Eyeshadow that stops ruining your under-eyes.

Sub: A working Gold Coast makeup artist's clean, repeatable method for controlled eyes that look done — in person, on camera, and in real Australian heat. In under an hour.

Primary CTA: Get the mini-class — \$27

Problem — "Sound familiar?" You perfect your under-eyes... then eyeshadow fallout wrecks them. You wipe it, smear your concealer, and start over — late again. Tutorials are for advanced glam, not your morning. It looks fine in the mirror and messy in photos. *It's not you. It's a missing step nobody shows you.*

Inclusions: 8 short video lessons · the 5-step Clean Method card · beginner tool list (8 things, not 40) · fallout-prevention & troubleshooting guides · practice tracker · FAQ. Lifetime access, any device.

Lash Lock (honest): "In the class I use Lash Lock, my reusable fallout-control tool — but the method works with a folded tissue too, so you're never blocked." **AMBER — no performance claim until Gate A**

Guarantee: a simple satisfaction refund (not a results guarantee) — **pending AU review**.

EMAIL — NURTURE E2

Subj: This is why your under-eyes get ruined

The messy-face problem isn't your shadow — it's a missing *control* step. {30s split-face clip}.

There's a full clean-eye class if you want the whole method → {LP}. No pressure. — Kat

EMAIL — OBJECTION

Subj: Isn't this all on YouTube?

Honestly? The tips are. What's not free: a short ordered *system*, the exact 8 tools, and me showing the un-glam steps in order so it sticks. That's the \$27 class → {LP}.

Full sequences (nurture ×5, purchase ×8, cart-abandon ×3, 7-day launch ×6) in **16_EMAIL_FUNNEL**.

5 · The video engine

20 content pillars · 52 hooks · 30 concepts · 20 reel scripts · 5 ad scripts. Below: the storyboards for the hero videos (frame-by-frame), the ad scripts, thumbnail system and generation prompts. Everything needed to shoot — production happens at the batch shoot.

Content pillars (top 8 of 20)

Pillar	Objective	Format	/wk
Split-Face "Clean or Messy?"	Signature scroll-stopper	Split-face	2×
Makeup mistakes	Identify her problem	Diagnosis	1–2×
"The step you're skipping"	Pro micro-lessons	Demo	1–2×
Lash Lock demos RED*	Honest product proof	Macro	≤1:4
AU heat "Does it hold?"	Ownable moat	Heat-check	fortnightly
Mature-skin	Serve underserved	Demo	1×
Honest failure testing	Differentiator/trust	Demo	fortnightly
Kat's story/authority	Trust → convert	Talking-head	fortnightly

*Lash Lock claims stay interim-safe/demo-led until Gate A.

Hook bank (12 of 52)

1. "This is why your under-eye makeup gets ruined after eyeshadow."
2. "You're not bad at makeup. You're skipping one step."
3. "Stop wiping fallout across your finished concealer."
4. "You don't need 40 brushes. You need 3."
5. "I did the clean side and the messy side so you can see."
6. "Watch what this catches before it hits my concealer." **gate**
7. "I'm a makeup artist, and this is the step I refuse to skip."
8. "A clean, done eye in under 10 minutes — real time."
9. "Concealer settling into your lines? It's not your age."
0. "'Isn't this all free on YouTube?' Kind of."
1. "Here's where my fallout tool *won't* help you."
2. "The clean eye that holds in 30-degree heat." **gate**

5 • Video storyboards (hero set)

C04 • LASH LOCK HERO — "WATCH WHAT IT CATCHES" • 20S • REAL FOOTAGE ONLY

Thumbnail: "Watch what this catches"

0-2S HOOK
Macro: tool held under lash line. OST: "Watch the catch". Sound: near-silence.

3-7S
Unprotected eye — pack shadow — fallout drops onto finished under-eye.

8-13S
Wipe it → smears concealer. "Sound familiar?"

14-18S REVEAL
Protected eye — macro catch on tool — **UNCUT**
. Music back in.

19-20S CTA
Clean lift, no cleanup. "How I use it — link."

Script: "Same shadow, both eyes. No protection — fallout, straight onto my under-eye. Now I hold the tool under my lash line like a shelf... and watch. [pause] Nothing reached my under-eye. Lift, no cleanup. That's the whole difference." • QC: catch uncut & sharp; tissue alternative shown; no over-claim.

C01 • SPLIT-FACE "CLEAN OR MESSY?" • 20S • REAL FOOTAGE

Thumbnail: "Clean vs messy"

0-2S
Half-and-half face freeze. OST: "Same eye. Same shadow."

3-9S
Messy side: no control step → fallout everywhere.

10-16S
Clean side: method → nothing to wipe.

17-20S
Dual result side-by-side. "Full method free — link."

C16 • HONEST FAILURE — "WHERE IT WON'T HELP" • 25S • REAL FOOTAGE

Thumbnail: "What it WON'T do"

0-3S
Kat straight to lens: "Here's where my tool won't help you."

4-14S
Honest demo: won't fix a heavy hand / won't blend for you.

15-22S
"The tool helps the method; it doesn't replace it."

23-25S
"The method's the point — link."

This trust-first asset is mandatory in rotation (council + red-team resolution).

C07 • REAL-TIME "UNDER 10 MINUTES" • 30S • REAL FOOTAGE (AI LIFESTYLE OPENER OPTIONAL)

Thumbnail: "Under 10 min"

0-2S
Timer starts. "Clean eye, real time."

3-22S
Prep → Base → Control → 3 shades → liner → mascara, step tags stamp in.

23-27S
Done. Honest time on screen.

28-30S
"Repeatable eye you can do half-asleep — link."

5 • Direct-response ad scripts (5)

Ad	Angle	Hook	CTA / status
AD1	Problem-led (cold)	"This is why your under-eye makeup gets ruined after eyeshadow."	\$27 class · GREEN
AD2	Proof-led (cold)	"I did the messy side and the clean side so you can see."	\$27 class · GREEN
AD3	Time-poor	"A clean, done eye in under 10 minutes — real time."	\$27 class · GREEN
AD4	Bundle (retarget)	"The reusable tool I use to catch fallout — and the method."	\$69 · RED until Gate A/B/C
AD5	Objection (mid-funnel)	"Isn't this all free on YouTube?"	\$27 class · GREEN

AD1 FULL SCRIPT

"You perfect your under-eyes, then eyeshadow fallout wrecks them — so you wipe, smear, and start over. I'm Kat, a Gold Coast makeup artist, and there's one control step that fixes it. My clean-eye method is a short class — under an hour — for \$27. Clean eyes, no redo. Link's right here."

Primary text: "Eyeshadow fallout ruining your under-eyes? A working MUA's clean method — under an hour, \$27. No fluff, no \$3,000 course." · **A/B hook:** "You're not bad at makeup — you're skipping one step." · **Compliance:** results-vary disclaimer; no guaranteed results.

Thumbnail / cover system

One high-contrast phrase (2–4 words), macro or face proof (never a logo), clay accent bar, consistent lower-third so the grid reads as a series:

Watch the catch

SET before shadow

Clean vs messy

Under 10 min

5 mistakes

Higgsfield generation prompts (AI = B-roll only)

ASSET Campaign: LLBS | Scene: product hero | 9:16 | 3–4s | image-to-video | Ref: lashlock_front.jpg
SUBJECT LOCK Lash Lock exactly as reference — same shape/colour/logo. Never change: silhouette, logo, proportions.
SCENE clean oat surface, soft neutral bg, out-of-focus brushes, morning light, subtle real texture.
ACTION product still; slow 4s parallax push-in + gentle rack focus. No hand, no morph.
CAMERA macro-medium, 50mm feel, slight high angle, slider push-in, shallow DoF, text-safe top/bottom.
NEGATIVE warped shape, drifting/duplicated logo, wrong scale, blown highlights, text artifacts.
ACCEPTANCE pass only if shape/logo/colour match reference & motion smooth; else regenerate or shoot real.

Rule: all technique/proof/interaction = real footage. AI limited to product beauty B-roll, lifestyle ambience, transitions — never as performance proof (29_AI_RIGHTS_QC).

6 · Funnel & operations

Funnel: Free Method Card → email capture → nurture → **\$27 core** → \$14 order bump → \$69 Lash Lock upsell **RED** → follow-up → flagship. Checkout runs on a hosted, PCI-compliant platform; access granted only on **server-side webhook** confirmation (never client-side "success").

Operations pack (built)

- Support macros + refund workflow + onboarding
- Review-request system + feedback survey + master FAQ
- Launch-day checklist + incident / defect / recall procedures
- Analytics dashboard + weekly review + 90-day board
- Course production checklist + call sheets + trackers

Budget (AUD)

- Pre-first-sale outlay: **~\$55–170** (phone, tripod, lav mic, free editing, hosted course)
- AI-generation cap: ~\$30/mo to start; max 3 regenerations/shot
- Paid-ad test cap: \$10–30/day; stop-loss if CPA > contribution
- Organic funds paid; premium tools on evidence only

Checks run this build

PASS npm test 20/20 · **CLEAN** secret scan (no keys/PII committed) · **NOTED** npm audit 2 dev-only advisories (out-of-scope app; documented, not force-upgraded).

7 • Claim register & the three launch gates

Claim	Class.	Status	Safe interim wording
Reusable eye-makeup tool	Factual	OK	Use as-is
Catches eyeshadow fallout	Needs test T1	✗	"I use it to help keep fallout off my under-eyes — watch" (demo-led)
Cleaner mascara / less lid print	Needs test T3	✗	Demo only
Reusable / durable / lasts	Needs test + supplier	✗	"reusable" only (no lifespan number)
Made from [material] / silicone	Needs supplier cert	✗	Do not state material
Hypoallergenic / non-toxic / de-puffs / anti-ageing	Medical/therapeutic	Prohibited	Never use
Guaranteed results	Prohibited	Prohibited	Satisfaction refund only
Course: "repeatable clean method"	Factual	OK	Use as-is

The three gates (human / qualified-party actions — not bypassable)

Gate	Owner	Action	Pack ready
A — Physical testing	Kat + volunteers	Run the 20-test protocol; photograph the catch; log incidents	04/02
B — Supplier evidence	Supplier	Material/SDS/compliance/IP/insurance; score responses	25/01–02
C — AU compliance	Qualified adviser	Review all claims + refund/guarantee + disclosure/privacy	26/01

8 · Red-team review — v1

Hostile audit of the whole system. Severity/Likelihood H/M/L. Selected 12 of 22 findings; full set in 19_RED_TEAM .

#	Risk	Sev	Fix	Blocks?
1	Unverified product claims	H	Claim register gates every claim; demo-as-proof	YES
2	Product safety near eye / skin reaction	H	Supplier spec + wear-test; no medical claims	YES
3	"Gimmick" perception	M	Honest tests incl. "won't help"; tissue alt shown	No
4	"It's all free online" objection	M	System/outcome framing; finished lead magnet	No
6	AI visual defects / uncanny / bad hands	M	Real footage for interaction; AI B-roll only; frame-check	No
8	Misleading (staged) demonstration	H	Uncut reveal rule; honest timing/heat numbers	Partial
9	AU advertising / consumer-law	H	Qualified review of claims/guarantee/refund	YES
11	Poor bundle margins	M	Fill unit economics before scaling paid	No
14	No proof at launch	M	Lead with demonstration; gather consented proof in soft launch	No
15	Production workload / burnout	H	Batch shoots; sustainable calendar; reuse B-roll	No
17	Refund risk from over-promise	M	Match hook to payoff; honest promise	No
18	Accessibility (captions/contrast)	M	Always-caption; high contrast; off-eye text	No

Red-team — v2 (post-finalisation: security, privacy, payments, ops)

#	Finding	Sev	Fix applied	Blocks?
N1	Course access on client-side "success" redirect	H	Server-side webhook entitlement (blueprint)	Paid course
N2	Unsigned webhooks spoofable	H	Require signature verification	Yes
N3	Secrets committed to git	H	Hardened .gitignore + .env.example; scan clean	No (clean)
N5	Card data stored	H	Hosted checkout; never store cards	Payments
N7	Testimonial without release / fake	H	Release required; real-only policy	That asset
N8	AI clip implies real customer / fake proof	H	Hard prohibition + visual QC checklist	That asset
N9	Skin reaction from unverified product	H	Gate A T8 + incident/recall; no sale pre-verify	Product
N10	Refund wording waives ACL rights	M	Draft preserves consumer guarantees	Copy
N11	Dev-dependency vuln (root app)	L	Documented; fix on that app's branch (dev-only)	No

Stop condition met. No fixable critical/high issue remains unaddressed — each is fixed-in-blueprint or converted to an owned gate with an exact action. Three external gates (A/B/C) remain and are not bypassable.

9 • Expert council review

Simulated analytical review — not real external certification. No simulated reviewer can override missing physical evidence or professional legal advice. Scores /10.

v1 council (15 reviewers) — average ≈ 7.5

Reviewer	One change	Score
Beauty educator	Keep each lesson ≤6 min	8
Working MUA	Lead with demo, not claims	8
Direct-response marketer	Soft-launch to harvest proof first	7
Organic strategist	Rotate pillars; mine comments	8
AU consumer-law	Formal review before any claim	6
Ecommerce conversion	End-to-end checkout test	7
Sceptical customer	More unpolished real results	7
Accessibility	Contrast + caption QC every asset	7
+ cinematographer, editor, Higgsfield, product designer, CX, conservative operator, director		8 avg

v2 council (20 reviewers) — before ≈ 6.2 → after ≈ 8.4

Reviewer	Before	After	Launch status
Product-safety	5	8	RED (product)
AU consumer-law	5	8	AMBER → RED claims
Advertising-claims	5	9	AMBER
Privacy	4	8	AMBER
Cybersecurity	5	9	GREEN (docs)
Secure engineer	5	9	GREEN (spec)
Payment/fraud	5	8	GREEN (spec)
AI-realism	6	9	GREEN
Accessibility	6	8	GREEN
Conservative operator	7	9	GREEN
Working MUA	8	9	GREEN (class)
Sceptical customer	6	8	AMBER
+ DevOps, ecommerce, beauty educator, marketer, organic, director, Higgsfield, CX (all 8–9)			

Disagreements resolved by evidence, not vote: marketer wanted proof now vs safety/law want evidence first → soft-launch harvests real proof, no claim before evidence. Higgsfield scale vs realism → real-footage-first holds. Operator zero-spend vs polished funnel → hosted platform satisfies both.

Verdict: the education + content + technical system is GREEN/AMBER (launchable on interim-safe copy). The physical product & its claims are RED until Gates A/B/C — no score changes that.

10 · Do these five things next

1. Run Gate A physical testing. Execute the 20-test protocol and photograph the catch. This unlocks every product claim.

2. Send the supplier pack & book the AU compliance review. Emails are written and ready in 25/01 and 26/01 .

3. Batch-shoot the class + organic footage (over-shoot the macro catch), then build the mini-class + free Method Card.

4. Stand up hosted course + checkout securely (server-side entitlement, 2FA) and run a self-purchase test end-to-end.

5. Publish Week-1 educational content (interim-safe copy) to grow the email list, then soft-launch the class to gather real proof before the public launch. Sell the tool/bundle only after Gates A/B/C.

Lash Lock Beauty System · NorthPath · Compiled by Claude Code · 21 July 2026

Full working files on branch `c laude/lash-lock-beauty-system-ckcxha` · This document contains no fabricated claims, testimonials, or test results.
